

The Minnehaha Creek Watershed District is committed to a leadership role in protecting, improving and managing the surface waters and affiliated groundwater resources within the District, including their relationships to the ecosystems of which they are an integral part. We achieve our mission through regulation, capital projects, education, cooperative endeavors, and other programs based on sound science, innovative thinking, an informed and engaged constituency, and the cost effective use of public funds.

Pursuant to Minnesota Statutes Chapter 103D, and on the basis of statements and information contained in the permit application, correspondence, plans, maps, and all other supporting data submitted by the applicant, and made a part hereof by reference, PERMISSION IS HEREBY GRANTED to the applicant named below for use and development of land in the Minnehaha Creek Watershed District.

Issued to:	Henn. Co. Public Works Dept	Permit No:	10-335
Location:	Lyndale Ave and Minnehaha Creek, Minneapolis		
Purpose:	Erosion Control, Stormwater Mgt & Waterbody Crossing		
Date of Issuance:	12/17/2010	Date of Expiration:	12/17/2011

By Order of the Board of Managers

  
Steve Christopher  
District Technician

This permit is not transferable without District approval, and is valid to the date of expiration. No activity is authorized beyond the expiration date. If the permittee requires more time to complete the project, an application for renewal of the permit must be received by the District at least 30 days before expiration.

The applicant is responsible for compliance with all District Rules and for the action of their representatives, contractors, and employees.

**Conditions:** Project to be completed as described in plans submitted to the MCWD office on November 9, 2010 according to the provisions of this permit.

- Properly install and maintain all required erosion control measures until the disturbed areas are re-stabilized
- When the site is re-stabilized and the MCWD staff has performed a final inspection, all silt fences must be removed

(Statement concerning fees for inspections, violations, etc... on following page)

**Inspection/Analysis/Monitoring Fees**

The Minnehaha Creek Watershed District is committed to a leadership role in protecting, improving and managing the surface waters and affiliated groundwater resources within the District, including their relationships to the ecosystems of which they are an integral part. We achieve our mission through regulation, capital projects, education, cooperative endeavors, and other programs based on sound science, innovative thinking, an informed and engaged constituency, and the cost effective use of public funds.

A site inspection and monitoring by District staff will be performed where the activity involves:

- a commercial/industrial/multi-family residential development
- a single family residential development greater than 5 acres or of any size if within the Minnehaha Creek subwatershed
- any alteration of a floodplain or wetland
- dredging within the beds, banks or shores of any protected water or wetland
- a violation
- any project which in the judgment of the District staff should be inspected due to project location, scope, or construction techniques

In these cases, the applicant shall pay to the District a fee equal to the actual costs of field inspection of the work, including investigation of the area affected by the work, analysis of the work, and any subsequent monitoring of the work, which in the case of a violation shall be at least \$35.
