

NOTICE TO CONTRACTORS

Contractors that bid on Hennepin County Road and Bridge Project can now access plans, specifications and other support documents such as soil boring reports, building data sheets, well disclosures and hazardous environmental reports.

In order to access these reports online, contractors will be required to request a logon I.D. and password. This can be done by going to ConneX:
<https://eAuth.dot.state.mn.us>.

When you set up your user I.D. and password, you can find instructions on accessing the eGram server by going to Hennepin County Bid Guide Website: <http://www.hennepin.us/egram>

In eGram you can then access the online documents for the project:
<https://egram.co.hennepin.mn.us/>.

These documents will also be available in hard copy for review only at the Hennepin County Public Works Facility in Medina.
